

Accessing the Library's Electronic Resources

The Swedenborg Library subscribes to a number of electronic resources to support students, faculty and patrons in their research and education.

OCLC's EZProxy is a service that makes it simple for members of the Bryn Athyn College community to access the Swedenborg Library's Electronic Resources.

1. Go to the [Swedenborg Library's Electronic Resources](#).
2. Select one of the available databases.

Databases

- [Birds of the World \(BOW\)](#)— A powerful new resource that brings together scholarly content from four celebrated works of ornithology—*Birds of North America* and *Neotropical Birds* with *Handbook of the Birds of the World Alive* and *Bird Families of the World* into one rich and colorful hub where you can find comprehensive, authoritative information on birds.
- [CloudSource OA](#) – a vast, growing, curated collection of high-quality, reliable, Open Access articles, journals, books, and other media that that is not behind a paywall. Search CloudSource by selecting CloudSourceOA from the dropdown menu on the library's online catalog.
- [Credo](#) – an Infobase collection that provides access to the full text of hundreds of highly regarded and popular reference books. Entries are enhanced with images, sound files, animations and videos.
- [Encyclopedia Britannica](#) – a multimedia encyclopedia and dictionary.

3. On the OCLC login screen, enter your campus username and password.

[What is my Username and Password?](#)

The image shows a screenshot of the OCLC login interface. At the top left is the OCLC logo, which consists of three overlapping circles in blue, green, and orange, with the text "OCLC™" below them. Below the logo is a horizontal line. Underneath the line, there are two input fields. The first is labeled "Please enter your username:" and contains the text "john.smith". The second is labeled "Please enter your password:" and contains a series of dots representing a masked password. Below these fields is a "Login" button.

Once you log in, the session will stay open for 2 hours with no activity.
As long as you are active, the session will stay open.
